## First Time?

[WHAT TO EXPECT](#)

Our paperless registration process is quick and easy. It will take about 3 minutes and once we check a valid ID - *Don't forget to bring it!* Our Staff will give you a cleansing towel which you can use at our vanity mirror to wipe off any make-up. Please feel free to have a drink of water while you wait.

Our highly trained healthcare professionals will perform the laser treatment by using a hand piece, which delivers a pulse of laser over the facial area. It feels like a tingling sensation that is noticeable but not painful. The laser hits the dermis and deep cleans by vaporizing impurities in the skin. The laser also targets pigmentation, stimulates collagen production and destroys bacteria.

AT SKIN LAUNDRY WE KNOW HOW FRUSTRATING IT IS TO MAKE A BOOKING AT A CLINIC SO ALL OUR CLINICS HAVE 10 MINUTE BOOKING INTERVALS SO WE CAN MAKE SURE TO SEE YOU ON THE SAME DAY.

[BOOK NOW](#)

Next a layer of cooling gel is placed on the skin for the ipl (intense pulse light) treatment. The ipl delivers high intensity pulses of broadband light which helps to reduce redness and even out skin tone. The skin is then cleansed again to remove the gel and SKIN LAUNDRY'S TONER and DAILY MOISTURIZER WITH SPF 35 is applied to finish the treatment.

## The Skin Laundry Philosophy

We believe healthy skin starts with clean skin... really deep down clean. Completely changed my skin! I have suffered from acne and blemishes for years and I have been trying to be “kind” to my skin- avoid any harsh washes, masks, etc. This cleanser is absolutely perfect! My skin is flawless, moisturized and looks so healthy!!!!

## FAQ

### FREQUENTLY ASKED QUESTIONS

#### *What is Skin Laundry's Signature Light & Laser Treatment?*

Our Signature Laser & Light Treatment utilizes advanced YAG Laser & Light technology to completely cleanse your skin by removing all the dirt and bacteria. This helps even out skin tone, decrease pore size, improve scars and blemishes making the skin healthier, stronger and more radiant. The treatment only takes 10 minutes and there is no downtime.

#### *How much does it cost?*

Our unique method involves using a YAG laser and IPL (Intense Pulse Light). The laser actively vaporizes excess dirt, makeup and bacteria from your pores first and foremost; the long term effects of the laser can help with pigmentation and collagen production. The IPL works with the brown and red tones of the skin to even out the skin tone as well as stimulate the natural collagen that lies down in the dermis. The combination of laser and IPL clears tones and conditions the skin. The pores are also minimized so they appear less visible.

#### *Who performs the treatment?*

#### *What areas can be treated?*

#### *Is it painful?*

#### *What results can I expect?*

#### *How soon will I see the results?*

#### *Should I get multiple treatments?*

#### *Who should **not** undergo a Skin Laundry treatment?*
